### Distribution of Keys to

25X1A9a

1. The following information is submitted in response to your request to Mr. ██████████ GSO, for a statement regarding the distribution of keys to the ██████████

25X1A6d

- a. North, South and East metal loading doors have padlocks with duplicate set of keys. A key to each door is stored in a glass-paned box adjacent to the door for the use of guards in an emergency. The other set of keys is retained in the office at the East door.
- b. The North and South loading doors have iron-grilled gates on the outside of the doors that are pulled to and padlocked. There are two keys for each of these locks and one is stored adjacent to each door for the use of the guard. The other set is retained in the office.
- c. Within the building are two doors, giving access to the caged areas. The padlocks on these doors are keyed alike and there are two keys. One key is stored in a glass-paned box near the doors for the use of the guard. The other key is stored in the office.
- d. There are two keys to the office door and these are retained at [REDACTED]
- e. There are two keys to the personnel entrance door next to the East loading door. One of these keys was turned over to the guard at the gate on 7 August 1953. The other key is retained at [REDACTED]
